Did You Know...

In a satisfaction survey of dental clients, when asked for suggestions to make service better, nearly **80%** wrote in a desire for appointment reminders and communications via Text Messaging.

FEATURE HIGHLIGHT TEXT MESSAGING (SMS)

SMS is one of the many features our phone system offers, it allows you to connect with your clients more efficiently.

Appointment reminders or event notifications 1 at a time or large scale scheduled texts, connecting with all your patients instantly.
